Bogs Baths And Basins The Story Of Domestic Sanitation:

Bogs, Baths and Basins David J Eveleigh, 2006-11-15 Covers the early primitive sanitation devices such as cesspits and urban dung heaps From Roman times up to modern day luxury this book leads us chronologically through the story of sanitation It also describes the advances that came with the onslaught of technology from the seventeenth to the twentieth century With first hand accounts and evidence from diaries and contemporary records David Eveleigh traces the history of inventions that have affected everyone throughout history told with a lively combination of human interest and drama

Sanitary Reform in Victorian Britain, Part II vol 5 Michelle Allen-Emerson, Tom Crook, Barbara Leckie, 2021-12-24

Sanitary reform was one of the great debates of the nineteenth century This reset edition makes available a modern edited collection of rare documents specifically addressing sanitary reform Each volume will begin with an introduction and the documents presented have headnotes and endnotes provided A full index appears in the final volume The Concept of

Water Rupert D. V. Glasgow, 2009 Water is commonly taken for granted and treated with contempt yet it is the very foundation of human existence Assuming countless forms it is deeply associated both with life and death body and soul purity and pollution creation and destruction The Concept of Water seeks to bring together the various aspects of our deeply ambiguous relationship with water providing a systematic account of its symbolic and philosophical significance This involves looking at how water has been conceived and the role it has played in everyday thought mythology literature religion philosophy politics and science both across cultures and through history R D V Glasgow was born in Sheffield and currently lives in Zaragoza His previous books are Madness Masks and Laughter 1995 Split Down the Sides 1997 and The Comedy of Mind 1999 **Scents & Sensibility** Catherine Maxwell, 2017 Explores Victorian literature through scent and perfume

presenting an extensive range of well known and unfamiliar texts in intriguing and imaginative new ways that make us re think literature s relation with the senses A selection of poems essays and fiction exploring these texts with reference to both the little known cultural history of perfume use and the appreciation of natural fragrance in Victorian Britain It shows how scent and perfume are used to convey not merely moods and atmospheres but the nuances of the aesthete or decadent s carefully cultivated identity personality or sensibility **John Aubrey & Stone Circles** Aubrey Burl, 2010-10-15 The career of eminent archaeologist John Aubrey and his revolutionary work on stone circles

An Archaeology of Institutional Confinement Peter Davies, Penny Crook, Tim Murray, 2013-09-29 The archaeological assemblage from the Hyde Park Barracks is one of the largest most comprehensive and best preserved collections of artefacts from any 19th century institution in the world Concealed for up to 160 years in the cavities between floorboards and ceilings the assemblage is a unique archaeological record of institutional confinement especially of women The underfloor assemblage dates to the period 1848 to 1886 during which a female Immigration Depot and a Government Asylum for Infirm and Destitute Women occupied the second and third floors of the Barracks Over the years the women discarded and swept beneath the floor thousands of

clothing and textile fragments tobacco pipes religious items sewing equipment paper scraps and numerous other objects many of which rarely occur in typical archaeological deposits These items are presented in detail in this book and provide unique insight into the private lives of young female migrants and elderly destitute women most of whom will never be known from historical records

Bathroom Barbara Penner, 2013-11-15 Most of us take modern bathrooms for granted they are an essential part of our homes but we ignore the complex network of pipes pumps and treatment plants that make up indoor plumbing's infrastructure Telling the story of one of the world's greatest feats of engineering and mass production Bathroom follows the room's evolution and the lifestyle it enables Considering how and why the bathroom emerged Barbara Penner describes how it became an international symbol of key modern values such as cleanliness order and progress She explores how colonialism the media fashion world expositions and tourism led to the bathroom being exported across the globe and explains the tensions this process has caused While Penner investigates bidets high tech toilets cast iron bathtubs and walk in showers she also ponders the low tech sustainable alternatives available to us Filled with illustrations Bathroom is an amusing and eye opening cultural history of one of our most used but overlooked rooms

Construction Matters Stefan Holzer, Silke Langenberg, Clemens Knobling, Orkun Kasap, 2025-03-04 Construction History Construction Heritage Recent Construction Historiography Industrialization Engineering Sciences Building Materials Building Actors Construction History is still a fairly new and small but quickly evolving field The current trends in Construction History are well reflected in the papers of the present conference Construction History has strong roots in the historiography of the 19th century and the evolution of industrialization but the focus of our research field has meanwhile shifted notably to include more recent and also more distant histories as well This is reflected in these conference proceedings where 65 out of 148 contributed papers deal with the built heritage or building actors of the 20th or 21st century The conference also mirrors the wide spectrum of documentary and analytical approaches comprised within the discipline of Construction History Papers dealing with the technical and functional analysis of specific buildings or building types are complemented by other studies focusing on the lives and formation of building actors from laborers to architects and engineers from economical aspects to social and political implications on legal aspects and the strong ties between the history of construction and the history of engineering sciences The conference integrates perfectly into the daily work at the Institute for Preservation and Construction History at ETH Zurich Its two chairs the Chair for Building Archaeology and Construction History and the Chair for Construction Heritage and Preservation endeavor to cover the entire field and to bridge the gaps between the different approaches methodologies and disciplines between various centuries as well as technologies learning together and from each other The proceedings of 8ICCH give a representative picture of the state of the art in the field and will serve as a reference point for future studies

The Last Taboo Maggie Black, Ben Fawcett, 2010-09-23 Except in schoolboy jokes the subject of human waste is rarely aired We talk about water related diseases when most are sanitation related in short we don't mention the shit

A century and a half ago a long hot summer reduced the Thames flowing past the UK Houses of Parliament to a Great Stink thereby inducing MPs to legislate sanitary reform Today another sanitary reformation is needed one that manages to spread cheaper and simpler systems to people everywhere In the byways of the developing world much is quietly happening on the excretory frontier In 2008 the International Year of Sanitation the authors bring this awkward subject to a wider audience than the world of international filth usually commands They seek the elimination of the Great Distaste so that people without political clout or economic muscle can claim their right to a dignified and hygienic place to go Published with UNICEF

Healing with water Jane M. Adams, 2015-05-01 Healing with water provides a medical and social history of English spas and hydropathic centres from the early nineteenth to the mid twentieth centuries It argues that demand for healing rather than leisure drove the growth of a number of inland resorts which became renowned for expertise and treatment facilities These aspects were actively marketed to doctors and patients It assesses the influence of these centres on broader patterns of resort development leisure and sociability in Britain The study explores ideas about water's healing potential and the varied ways it was used to maintain good health and treat a variety of illnesses Water cures were endorsed by both orthodox and unorthodox practitioners and attracted growing numbers of patients into the twentieth century It examines how institutions and skilled workers shaped the development of specialist resorts and considers why the NHS support for spa treatment declined from the 1960s

The Bathroom Companion James Buckley, Jr., 2015-12-15 It's the most used room in the house but how much do you know about it Here's the first book about the bathroom written exclusively for the bathroom Set it on the back of the tank and learn something new on every visit amazing facts and figures from history science pop culture and more Don't let your time in the bathroom be a waste

Foul Bodies Kathleen M. Brown, 2009-01-01 In colonial times few Americans bathed regularly by the mid 1800s a cleanliness revolution had begun Why this change and what did it signify A nation's standards of private cleanliness reveal much about its ideals of civilization fears of disease and expectations for public life says Kathleen Brown in this unusual cultural history Starting with the shake up of European practices that coincided with Atlantic expansion she traces attitudes toward dirt through the mid nineteenth century demonstrating that cleanliness and the lack of it had moral religious and often sexual implications Brown contends that care of the body is not simply a private matter but an expression of cultural ideals that reflect the fundamental values of a society The book explores early America's evolving perceptions of cleanliness along the way analyzing the connections between changing public expectations for appearance and manners and the backstage work of grooming laundering and housecleaning performed by women Brown provides an intimate view of cleanliness practices and how such forces as urbanization immigration market conditions and concerns about social mobility influenced them Broad in historical scope and imaginative in its insights this book expands the topic of cleanliness to encompass much larger issues including religion health gender class and race relations

The Mercenary River Nick Higham, 2022-04-14 Anyone interested in the real London needs to read this Andrew

Marr No city can survive without water and lots of it Today we take the stuff for granted turn a tap and it gushes out But it wasn't always so For centuries London one of the largest and richest cities in the world struggled to supply its citizens with reliable clean water The Mercenary River tells the story of that struggle from the middle ages to the present day Based on new research it tells a tale of remarkable technological scientific and organisational breakthroughs but also a story of greed and complacency high finance and low politics Among the breakthroughs was the picturesque New River neither new nor a river but a state of the art aqueduct completed in 1613 and still part of London's water supply the company that built it was one of the very first modern business corporations and also one of the most profitable London water companies were early adopters of steam power for their pumps And Chelsea Waterworks was the first in the world to filter the water it supplied its customers the same technique is still used to purify two thirds of London's drinking water But for much of London's history water had to be rationed and the book also chronicles our changing relationship with water and the way we use it Amongst many stories Nick Higham's page turning narrative uncovers the murky tale of how the most powerful steam engine in the world was first brought to London the extraordinary story of how one Victorian London water company deliberately cut off 2 000 households even though it knew they had no alternative source of supply the details of a financial scandal which brought two of the water companies close to collapse in the 1870s and finally asks whether today's 21st century water companies are an improvement on their Victorian predecessors

A Manufactured Wilderness Abigail Ayres Van Slyck,2006 Since they were first established in the 1880s children's summer camps have touched the lives of millions of people Although the camping experience has a special place in the popular imagination few scholars have given serious thought to this peculiarly American phenomenon Why were summer camps created What concerns and ideals motivated their founders Whom did they serve How did they change over time What factors influenced their design To answer these and many other questions Abigail A Van Slyck trains an informed eye on the most visible and evocative aspect of camp life its landscape and architecture She argues that summer camps delivered much more than a

simple encounter with the natural world Instead she suggests camps provided a man made version of wilderness shaped by middle class anxieties about gender roles class tensions race relations and modernity and its impact on the lives of children Following a fascinating history of summer camps and a wide ranging overview of the factors that led to their creation Van Slyck examines the intersections of the natural landscape with human built forms and social activities In particular she addresses changing attitudes toward such subjects as children s health sanitation play relationships between the sexes Native American culture and evolving ideas about childhood Generously illustrated with period photographs maps plans and promotional images of camps throughout North America *A Manufactured Wilderness* is the first book to offer a thorough consideration of the summer camp environment

The Big Necessity Rose George,2011-05-05 Produced behind closed doors disposed of discreetly hidden by euphemism shit is rarely out in the open in civilized society but the world of waste and the people who deal with it work with it and in it is a rich one This book takes us underground to the sewers of New York and London and overground to meet the heroes of India s sanitation movement American sewage schoolteachers the Japanese genius at the cutting edge of toilet technology and the biosolids lobbying team With a journalist s nose for story and a campaigner s desire for change Rose George also addresses the politics of this under reported social and environmental effluent and the consequences of our reluctance to talk about it Witty and original *The Big Necessity* proves that shit doesn t have to be a dirty word

Technology in the Country House Marilyn Palmer,Ian West (Writer on building),2016 Brings together research on the introduction of domestic technologies into country houses and their estates

Bernard Shaw and Modern Advertising Christopher Wixson,2018-06-13 This book charts how promotional campaigns in which Bernard Shaw participated were key crucibles within which agency and personality could re negotiate their relationship to one another and to the consuming public Concurrent with the rise of modern advertising the creation of Shaw s G B S public persona was achieved through masterful imitation of patent medicine marketing strategies and a shrewd understanding of the relationship between product and spokesman Helping to enhance the visibility of his literary writing and dovetailing with his Fabian political activities G B S also became a key figure in the evolution of testimonial endorsement and the professionalizing of modern advertising The study analyzes multiple ad series in which Shaw was prominently featured that were occasions for self promotion for both Shaw and the agencies and presage the iconoclastic style of contemporary public personality and techniques of celebrity marketing

Sustainable Water Engineering Ramesha Chandrappa,Diganta B. Das,2014-06-16 Ensuring safe and plentiful supplies of potable water both now and for future generations and developing sustainable treatment processes for wastewater are among the world s greatest engineering challenges However sustainability requires investment of money time and knowledge Some parts of the world are already working towards this goal but many nations have neither the political will nor the resources to tackle even basic provision and sanitation Combining theory and practice from the developing and developed worlds with high and low tech high and low cost solutions this book discusses

fundamental and advanced aspects of water engineering and includes water resource issues including climate change water scarcity economic and financial aspects requirements for sustainable water systems fundamentals of treatment and process design industrial water use and wastewater treatment sustainable effluent disposal sustainable construction principles With integrated theory design and operation specifications for each treatment process this book addresses the extent to which various treatment methods work in theory as well as how cost effective they are in practice It provides a nontechnical guide on how to recover and reuse water from effluent which is suitable for those in water resource management environmental planning civil and chemical engineering Law, Science, and Technology Lawrence M. Friedman, 2023-05-22 Through a series of historical analyses Friedman explores the relationship between the legal system and the development of modern science and technology The scientific revolution produced major changes in culture and these in turn led to changes in government and law The book covers among other topics the transportation revolution the camera and the entertainment industry the germ theory and its influence on modern society and the role of culture and technology in the sexual revolution
