Bond on Set Greg Williams, 2008 A visual journey behind the scenes of the James Bond movie Quantum of Solace offers a photographic record of the making of the film along with portraits of the cast and crew location shots set designs special effects and movie stills *Hollywood Action Films and Spatial Theory* Nick Jones, 2015-03-02 This book applies the discourse of the so called spatial turn to popular contemporary cinema in particular the action sequences of twenty first century Hollywood productions Tackling a variety of spatial imaginations contemporary iconic architecture globalisation and non places phenomenological knowledge of place consumerist spaces of commodity purchase cyberspace the diverse case studies not only detail the range of ways in which action sequences represent the challenge of surviving and acting in contemporary space but also reveal the consistent qualities of spatial appropriation and spatial manipulation that define the form Jones argues that action sequences dramatise the restrictions and possibilities of space offering examples of radical spatial praxis through their depictions of spatial engagement struggle and eventual transcendence *Film and Everyday Eco-Disasters* Robin L. Murray, Joseph K. Heumann, 2014-06-01 Eco disasters such as coal mining accidents oil spills and food borne diseases appear regularly in the news making them seem nearly commonplace These ecological crises highlight the continual tensions between human needs and the environmental impact these needs produce Contemporary documentaries and feature films explore environmental human conflicts by depicting the consequences of our overconsumption and dependence on nonrenewable energy Film and Everyday Eco disasters examines changing perspectives toward everyday eco disasters as reflected in the work of filmmakers from the silent era forward with an emphasis on recent films such as Dead Ahead an HBO dramatization of the Exxon Valdez disaster Total Recall a science fiction action film highlighting oxygen as a commodity The Devil Wears Prada a comment on the fashion industry and Food Inc a documentary interrogation of the food industry The authors evaluate not only the success of these films as rhetorical arguments but also their rhetorical strategies This interdisciplinary approach to film studies fuses cultural economic and literary critiques in articulating an approach to ecology that points to sustainable development as an alternative to resource exploitations and their associated everyday eco disasters
